

The diagram illustrates a process flow. On the left, a black silhouette of a human head facing right contains two white gears, symbolizing thought or computation. A thick black arrow points from the head towards the center. In the center, a red rectangular box with a black border and a black handle at the top contains the white text "LLVM IR". Another thick black arrow points from the LLVM IR box towards the right. On the far right, the word "Vast" is partially visible in a large, bold, black font, with a small black arrow pointing towards it.
